

Now you're talking!

The HTC S710 smartphone is the most compact smartphone with semi auto-sliding full keyboard. It redefines the smartphone with its attractive and sleek design – yet it's much more than just a phone! The HTC S710 is a multi-functional device and is the first smartphone to use the new Windows Mobile® 6.0. The new Windows Mobile® platform builds on the previous version by enhancing business and enterprise tools, and providing a richer interface for better user experience.

This compact phone makes light work of email, web and calls – but is anything but lightweight. Making calls, writing and sending emails, and surfing the internet are easy. You can also view your documents and PDFs while on the go, receive emails instantly through Direct Push, and stay connected with your contacts with Windows Live™

Practical and versatile, the HTC S710 is an ideal business and pleasure device. Armed with an array of connection options, such as Wi-Fi® and Bluetooth®, you stay connected to the world. Also, slide out the full keyboard to make typing messages a snap. Take quality pictures and video with the 2.0 megapixel camera and view them on the large 2.4 screen. The features are endless with the HTC S710.

Look sharp and be 'smart' with the HTC S710.
